

FY2025 Beaver County CDBG Project Application

SLUM & BLIGHT AREA NATIONAL OBJECTIVE COMPLIANCE

Applicant Name: _____ Use the same name as in Part 1 Project Information

Project Name: _____ Use the same name as in Part 1 Project Information

Slum and Blight A project meets a National Objective if it eliminates specific conditions of slums or blight. Because HUD limits the amount of CDBG funds that can be used for slum and blight activities, the applicant should be sure that the project will not qualify to meet a National Objective by low mod area or clientele before it attempts to qualify the project under slum and blight. An application that includes the incorrect National Objective compliance may not be funded.

Area – The activity is designed to eliminate a condition of slums or blight in a designated slum or blighted area. It must clearly address one or more of the specific conditions which qualified the area as blighted. Projects could include acquisition, clearance, public facilities, infrastructure or the remediation of a site to be redeveloped.

Contact the Community Development Program at 724-770-2040 for requirements and instructions.

Impact Statement. Explain how the project will primarily benefit all of the residents in the area(s) where the project is located. Describe how the proposed project makes a difference in the lives of the people, communities, and the environment within the area(s) that you identified. _____
